

Opportunities for professional development through the National Forestry Masters Program - 2008

National Forestry Masters Program

'The future of forestry education starts here'

The [National Forestry Masters Program](#) links professional Masters degrees at five universities. Subjects offered within the program are offered in one or two week blocks and may be taken individually for professional development. Subjects available over the remainder of 2008 are outlined below. Applications should be made to the university offering subjects as soon as possible and preferably at least two weeks prior to the commencement of the subject. Subject costs vary between universities and depend on whether students choose to take subjects in an assessed or non-assessed mode. Information about subjects, costs and how to apply is available from the contacts below.

Subject	Date	Location	Contact for Enrolment Info
Sustainable Forest Management	June 2 nd – 13 th	Uni of Melbourne, Creswick	Katherine Whittaker, 03 5321 4321 k.whittaker@unimelb.edu.au
